

**AMENDMENTS TO THE SPECIFICATION**

Please replace ¶ [018] with the following:

[018] The tension members 28 are usually fixed at a first 30 and second 32 end. An anchorage 34 incorporating the load measuring device 12 is shown in Fig. 2. The tension members 28 are attached to terminations 36. The terminations 36 include a rod 38 having a threaded end 40. The rod extends through a mounting plate 42 for attachment to a hitch.
